

Year 1 Science

This term in Science we started off by looking at identifying and classifying animals. We learnt the characteristics of birds, fish, amphibians and mammals and had fun sorting them into venn diagrams. We then looked at the structure of a variety of animals, did you know that all structures are different?

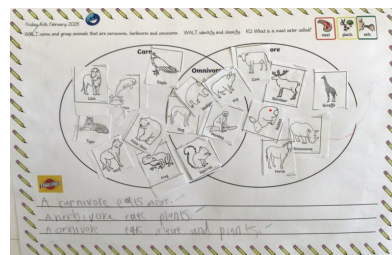

know
ent?!

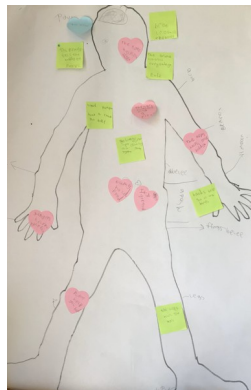

that all struc-

We learnt about the diet
tell you what a carnivore,

animals and humans have and can
herbivore and omnivore eat.

We then moved on to learning
different parts of the body that we
fun drawing around ourselves
body and what we use them

about humans. We looked at the differ-
can see on the outside. We had great
and labelling the different parts of the
for.

Humans have 5 senses -
which body part is as-
smell and touch experiment - the teachers were mean and made us smell cat food, no one

s - sight, hearing, touch, taste and smell. We know
sociated with each sense and had fun completing a
smell and touch experiment - the teachers were mean and made us smell cat food, no one
