

Oak Meadow  
Enrichment Opportunities  
2025-2026

From tiny acorns mighty oaks grow...

# SCIENCE

## Netball

Teamwork

Join Netball Club for fun, fitness, and teamwork!

Resilience

Children will practice their skills, play exciting games, and enjoy friendly competition while building confidence, coordination, and sportsmanship. It's

Communication Skills

a great way to stay active, make new friends, and have a fantastic time learning and playing together.

**Miss Evans - Year 5/6 - Mondays 3:15pm - 4:15pm**

## Cross Country

Children will enjoy running, building stamina, and taking on fun challenges while exploring the outdoors. You'll improve your fitness, boost confidence and discover the joy of running in a supportive and friendly environment.

Discipline

Goal-setting

**Mrs Brain - Year 4/5/6 - Mondays 3:15pm - 4:00pm**

Self Motivation

## Relaxation

Concentration

Relaxation Club is a calm and friendly space where we learn how to relax our minds and bodies. Through fun activities like meditation and breathing exercises, we help reduce stress, feel happy, and stay focused.

Self-control

Patience

We are proud to offer these enrichment opportunities through our diverse clubs and activities. These experiences are designed to inspire children to try new things, develop new skills, and discover passions they may never have known they had. Our enrichment programme is more than just fun – it reflects our core values:

- **Show empathy – ‘More than me’:** children learn to support and collaborate with others.
- **Be healthy – ‘Healthy body, healthy mind’:** activities promote physical well-being, mental resilience and physical fitness.
- **Be curious – ‘I see, I wonder’:** children explore, ask questions, and develop a love of learning.
- **Be ambitious – ‘Rise to the challenge’:** clubs encourage children to set goals, persevere, and achieve themselves and others.
- **Be creative – ‘Express yourself’:** children are given the freedom to imagine, invent, and express their ideas.

Through these opportunities, we hope every child at Oak Meadow feels inspired, confident, and motivated to grow both academically and personally, while enjoying memorable and meaningful experiences.

# Mathematics

## Checkmate Champs

Chess Club is a place to have fun while sharpening your mind! Children will learn the rules and strategies of chess, practice different moves, and challenge themselves with exciting games against friends. As they play, they'll discover new ways to think ahead, develop problem-solving and planning skills, and build confidence in their decision-making. With a balance of learning, practice, and friendly competition, Chess Club is the perfect space to enjoy the game, make new friends, and strengthen critical thinking.

**Mr Trott - Year 5/6 - Wednesdays 12:45pm - 1:15pm**

Problem-solving

Concentration

Critical thinking

## Fairground Fantasy

Step into Fairground Fantasy, where children can let their imaginations run wild! In this exciting club, they'll design and build their very own fairground, complete with creative rides, games, and attractions. Using science, technology, engineering, art, and mathematics, children will explore how things work while experimenting with different ideas and materials. With plenty of hands-on fun and the chance to see their ideas turn into real projects, this club is the perfect blend of learning, imagination, and excitement.

**Mrs Worrallo - Year 5/6 - Thursdays 3:15pm - 4:15pm**

# SCIENCE

## Gymnastics and Dance

Come and join the fun at our Gymnastics and Dance Club! We tumble, stretch, spin, and groove to music while building confidence, coordination, and teamwork. You'll also get to use your skills in cheerleading moves like jumps and cheers!

Whether you love to dance, try new moves, or just want to have fun and get active, everyone is welcome. No experience needed—just bring your energy and a big smile!

**Miss Mease - Year 5/6 - Tuesdays 3:15pm - 4:15pm**

Resilience

Creativity

Confidence

## Green Guardians

Learn how to care for the environment by exploring the importance of recycling and using resources wisely.

We'll discover simple ways to reduce waste, reuse materials, and save energy in our daily lives. Kids will take part in fun activities like sorting recyclables and finding new ways to be economical with what we have. By learning these skills, they'll help protect nature, save resources, and make a positive impact on the planet—all while having fun and working together!

**Mr Lane & Miss Billingsley - KS1 & KS2 - Daily - 12:30pm - 1:15pm**

Responsibility

Curiosity

# TECHNOLOGY

## Tech Phonics

Confidence

Focus

Communication Skills

Come join the fun in Tech Phonics Club, where we use iPads to help us learn sounds and words! We play cool games and activities that make practicing phonics super fun and exciting. You'll get to hear different sounds, build words, and practice reading—all while using technology. It's a great way to practice reading and spelling, make new friends, and have a blast exploring words together!

**Mrs Bristow - KS1 - Mondays 12:30 - 1:00pm**

## Digital Photography

Welcome to Digital Photography Club, where you get to be a photo pro using iPads! We'll learn how to take amazing pictures of anything you like. You'll discover how to find the best angles, use light to make your photos shine, and try out different ways to make your pictures look super cool. Plus, we'll have fun editing our photos right on the iPads, adding colours, effects, and making our pictures pop! It's a great chance to be creative, explore the world around you, and share your awesome photos with friends. No experience needed—just bring your curiosity and a love for taking pictures!

# TECHNOLOGY

## Passport Explorers

In Passport Explorers, we use awesome tools like Google Earth to zoom in on real places all over the planet! You'll get to check out amazing cities, beautiful landscapes and famous landmarks right from your screen. We'll re-search countries you'd love to visit or even live in someday, learn about different cultures, foods, and traditions, and share all the fun facts we find. It's a fun way to travel, explore, and dream about your next big adventure.

Decision-making

Teamwork

**Mrs Clitheroe - Year 3/4/5/6 - Thursdays 3:15pm - 4:15pm**

## Website Wizards

In Website Wizards, you get to learn how to build your own websites from scratch! We'll explore fun tools and easy coding skills to create pages with text, pictures, and cool designs. Whether you want to share your hobbies, tell stories, or make a site for a project, this club helps you bring your ideas to life online. It's a great way to learn new tech skills, be creative, and have fun working with friends!

**Mr Hartland - Year 5/6 - Wednesdays 3:15pm - 4:15pm**

Problem-solving

# Engineering

## Mini Makers

In Mini Makers Club, children will have fun creating, designing, and building using both their hands and minds! They'll explore basic engineering skills to construct models, experiment with different materials, and discover how things work. As they plan, problem-solve, and bring their ideas to life, children will develop creativity, coordination, and teamwork. Along the way, they'll take on hands-on challenges, learn to think like young inventors, and enjoy the excitement of turning imagination into real projects.

**Mrs Welsh - KS1 - Mondays 12:30pm – 1pm**

Concentration

Creativity

Problem-solving

## Board Game Bosses

Board Game Creators is a fun, hands-on club where children get the chance to design, build, and play their very own board games! Using imagination, creativity, and basic engineering skills, they'll plan out game rules, build unique boards and pieces, and create exciting challenges for different year groups to enjoy. Along the way, children will discover the joy of inventing and sharing their creations with others in a supportive and playful environment.

**Miss Baker - KS2 - Mondays 3:15pm – 4:15pm**
