

CREATIVITY AND CULTURE FACULTY

'The Circle of Life'

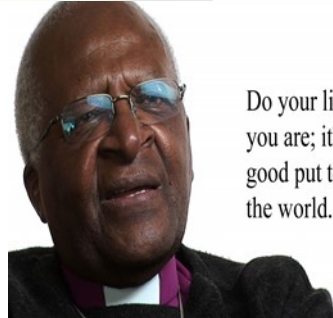

Our faculty intent

We aim to develop the creative nature of the children and inspire their thirst to experience culture and diversity through a wide range of activities relating to the continent of Africa.

Our vision is for every child to leave our faculty brimming with a new confidence to express themselves and having developed an appreciation for a different way of life.

What is creativity and culture?

Creativity is the use of imagination and original ideas to create something innovative. Using the rich and diverse continent of Africa as our stimulus, we are providing opportunities to enhance children's ability to be creative. Our aim is to open children's eyes to the world around them and transport them to exciting new cultures.

Do your little bit of good where you are; it's those little bits of good put together that overwhelm the world.

Desmond Tutu

The implementation of our faculty

During a day in the creativity and cultural team children will experience the following:

The Dance Room - Work collaboratively to perform a traditional African dance.

The Geography Room - Research the many cultures and countries within Africa.

The Art Room - Use different media and techniques to create a variety of African art.

The Music Room - Experience traditional African instruments and song to create a musical collaboration.

How our faculty aspires to make a difference

We hope that children will leave with feelings of new found confidence and the inspiration to explore the unknown, take risks and challenge themselves. Children will have varied opportunities to apply their musical, theatrical, artistic and enquiry skills. All activities have been planned around the progression of skills to ensure children are supported and challenged to meet their individual needs. Within this, children will be encouraged to support and depend upon each other, across our faculty. We are hoping to inspire children to reach their full future potential and make a significant difference in the life that they lead... wherever in the world that may be!
